

Brittany Stidd | Software Engineer

Portland, OR | 541-480-2890 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

I am a full stack software engineer with a passion for people. My previous career as an anesthesia assistant has given me an advantage as a developer in that I am detail-focused, driven, personable, and capable of producing consistently excellent work both in a team setting and independently. I am able to thrive most when I create products that are simple yet impactful to the community.

SKILLS

- **Programming Languages:** Python3, JavaScript, HTML, CSS, TypeScript
- **Frameworks and Libraries:** React Native, Expo, ReactJS, Django, Node.js/Express, jQuery, Mongoose
- **Databases:** MongoDB, PostgreSQL
- **Tools/Other:** GitHub, RESTful APIs, MERN stack applications, Figma, Google OAuth

RELEVANT EXPERIENCE

Financial Literacy Hackathon | Software Engineer | 8/15/23 - 8/17/23

Collaborated with a cross-functional team of 8 to address the challenge of accessibility for the average user to secure an understanding of personal finance and credit in a three day sprint.

- Maintained clear and open communication between fellow developers, the UX/UI team, and data engineers to create a visually stunning and functional application.
- Overcame time constraints by efficiently prioritizing tasks and clearly defining roles within the team.
- I was responsible for the front-end development of the app, matching the UX team designs and functionality as well as assisting in integration of the back-end.

[Rise](#) was made using React Native, Expo, TailwindCSS, and Supabase.

Software Engineering Immersive | General Assembly | Remote | December 2022 – March 2023

Completed 500+ hours of expert-led instruction in JavaScript, Python, MongoDB, Node, React, and hands-on learning of web and mobile application fundamentals using the industry's most in-demand technologies.

Developed projects, including:

- [SpeakEasy](#): Using Python, Google Translate API, Django, PostgreSQL - A social language translation app.
- [WAR](#): Using JavaScript, HTML/CSS – A rendition of the classic card game.
- [The Book Nook](#): Using JavaScript, HTML/CSS, Express/Node.js, Mongoose, MongoDB– A forum and collection of data on books.
- [The \[L\]ink](#) - Using React JS, Mongoose, Node.js, Express, and CSS - A directory of tattoo artists with information to book, leave reviews, and see their work.
